SUMMARY

Software Engineer with 3+ years of experience building scalable SaaS and **agentic AI platforms** using **React.js, Next.js, TypeScript, Node.js, FastAPI and AWS**. Strong in full-stack development, system design, real-time AI systems.

EXPERIENCE

Software Engineer, Infibeam Avenues (Phronetic AI) **Aug 2025 – Present**

- Built an **AI Agent Builder Platform** using **React, Next.js, FastAPI** with **agent marketplace and usage-based billing**; implemented **A2UI** and **LiveKit voice/video**, improving engagement by **40%**.
- Architected scalable backend orchestration on **AWS** for **webhooks, triggers, and cron jobs**, with secure **secrets/tools/gateways** and multi-channel integrations (**Slack, WhatsApp, Telegram, Email**), supporting **10+ languages** via **Sarvam & Gemini**.

Software Engineer, Nineleaps **Nov 2023 – Jul 2025**

- Built a **RAG chatbot** using **Node.js, React.js, OpenAI, LLaMA**, with multilingual support (+**20%** accessibility).
- Developed a **voice AI pre-sales agent** with **Salesforce & WhatsApp**, improving lead conversion by **22%** and reducing triage by **35%**.
- Enhanced **AthletesUntapped.com** with secure auth, modular UI (+**30%** reuse), and multi-env deployments; improved success rate by **40%**.
- Contributed to a **real-time messaging app** (**React, Spring Boot, Firebase**), improving engagement by **25%** with **90%+** test coverage.

Software Developer Intern, Headout **Jul 2023 – Nov 2023**

- Improved **booking fulfillment** and support workflows using **Zendesk**, reducing response time by **30%**.
- Enhanced **inventory management** systems, tracking accuracy by **25%** and reducing booking errors by **15%**.

Software Developer Intern, Flipkart **Feb 2023 – Jul 2023**

- Led operational process improvements across **IMT and Outbound**, improving business metrics by **35%** and handling **40% more load**.
- Performed data analysis to optimize **supply chain planning**, improving overall operational efficiency.

PROJECTS

CareNav - Insurance Claim Platform (Contract SWE, CareNav)

- Built features for an **AI-driven health insurance claims platform** using **Next.js, Django, and AWS**, automating claim validation and routing for hospitals, insurers, and TPAs.

Roalytics CRM (Contract SWE, Branddy.net)

- Built and shipped a **Chrome extension for Facebook Ads analytics** using **React.js, Express.js, and AWS**, enabling real-time comparison of leads, bookings, and sales metrics.

Moveflix — Movie Discovery App

- Live — GitHub Built with **React.js, Redux, TMDB API**, featuring search, filters, and responsive UI.

EDUCATION

Bachelor of Technology **Aug 2019 – Jul 2023**
National Institute of Technology (NIT), Jalandhar — GPA: 8.11 / 10

SKILLS

Frontend: A2UI, React.js, Next.js, Redux, TypeScript, JavaScript, HTML5, CSS3, Tailwind, MUI
Testing: Jest, Cypress, Mocha **Backend:** Node.js, Express.js, Python, FastAPI, REST APIs
DevOps: Git, Docker, AWS, CI/CD, Vercel **Other:** Problem Solving, System Design, Agile Development

ACHIEVEMENTS

- Executive Head, ThinkIndia NITJ Shortlisted 3x for SSB Placement Representative, NITJ
